<table>
<thead>

If you are unsure of your fee status, you can request an assessment from the university (fees.clerk@admin.ox.ac.uk). If you wish to receive financial support from the UK government, your fee status will also be automatically assessed by your regional funding agency.

FINANCIAL DECLARATION

You may be required to complete a financial declaration in order to have your place at Oxford confirmed. Your college will be able to advise you about what information is required.
HOME AND EU STUDENTS

If you are a Home or EU student the tuition fee for 2017 will be £9,250. If you do not wish to access a tuition fee loan, you will need to pay the full amount of your fee to your college at the start of each academic year.

All Home and EU students studying for their first undergraduate degree can access a loan from the UK government for the full amount of their tuition fee and do not need to pay anything upfront.

See pages 7 and 8 for information about applying for tuition fee support.

WELSH STUDENTS

Students from Wales may also receive a tuition fee grant from the Welsh Assembly, reducing the maximum tuition fee loan students are required to take out to £4,296 regardless of household income.

ALL OTHER STUDENTS

If you do not have Home or EU fee status, you will not be eligible for any tuition fee support from the UK government. Overseas students will also be charged a different level of tuition fee and be liable for an additional college fee.

MEDICAL STUDENTS

Home and EU students on the six year medicine course have different tuition fee arrangements in years five and six, as their fees are covered by the NHS. Visit www.ox.ac.uk/funding for more information. *Medical students with Islands or Overseas fee status should note that the tuition fees for the clinical years of their course will be considerably higher.

CHANGES TO FEES

The University caps the amount by which it can increase its fees annually. More information about the amount of the cap and how the increase is calculated is available at www.ox.ac.uk/ffchanges-fees. For Home and EU undergraduate students, tuition fees are also subject to a governmental fee cap and will not increase above the level of the fee cap, which is subject to annual review.
Living Costs

Living costs will vary significantly dependent on your lifestyle, but in 2017 these are estimated to be between £1,002 and £1,471 per month. This range is based on a single student with no dependants living in college accommodation (including utility bills). Undergraduate courses usually consist of three terms of eight weeks each, but as a guide you may wish to budget over a nine-month period to ensure you also have sufficient funds during the holidays to meet essential costs.

When planning your finances for any future years of study in Oxford beyond 2017/18, you should allow for an estimated increase in living expenses of 2% each year.

### ADDITIONAL COSTS

You may need to make additional provision for costs such as a student visa, international travel to and from Oxford and fieldwork. If you have dependants you will also need to consider separate costs related to your family. For information on course costs please visit [www.ox.ac.uk/courses](http://www.ox.ac.uk/courses).

### SUPPORT FROM OXFORD

Oxford provides non-repayable bursaries for Home and EU students from lower income households. In addition to helping with living costs, these bursaries enable students to make the most of the many opportunities Oxford has to offer.

### PREVIOUS STUDY

Home and EU students who have already completed a previous undergraduate programme of study will be classed as an Equivalent or Lower Qualification (ELQ) student for funding purposes, and will not be eligible for any UK government or Oxford financial support. If you did not complete your course, you might not receive funding for the full length of your studies at Oxford.
SUPPORT FROM THE UK GOVERNMENT

All Home students are eligible to apply for funding from the UK government towards their living costs although the amounts will vary by UK region. A basic level of maintenance loan is available to all Home students irrespective of household income. Students can also access a higher level of maintenance support based on their household income. UK government loan repayments are combined into a single amount which only becomes repayable once you have left your course.

MEDICAL STUDENTS

Home students on the six year medicine course have different funding arrangements in years five and six, as they are eligible to apply for living costs support from the NHS and the UK government. Visit www.ox.ac.uk/funding for more information.

WELSH, SCOTTISH AND NORTHERN IRISH STUDENTS

Confirmed figures for Wales, Scotland and Northern Ireland are expected to be published soon and will be added to www.ox.ac.uk/funding as soon as they are available.

See pages 7 and 8 for information about applying for living costs support. EU, ELQ, Islands and Overseas students should note that they are not eligible for living costs support from the UK government.
Scholarships

These scholarships provide both a bursary and a tuition fee reduction for UK students from lower income backgrounds. Scholars are required to take part in volunteering activities during the year and also have the opportunity to access internships over the summer. There is no separate application process for these scholarships. From mid September 2017, 175 new students will be invited to become Moritz-Heyman Scholars. For information on the scheme and the eligibility criteria, visit www.ox.ac.uk/mh.

Our Fees, Funding and Scholarship Search provides a comprehensive list of awards being offered by Oxford and can be found at www.ox.ac.uk/ffsearch. Further details on the centrally administered scholarships listed below can be found at www.ox.ac.uk/funding.

### How do I ensure that my household income is assessed?
If you want to be financially assessed, you and any adults you live with will need to complete a financial assessment as part of the application. During this process your household income is calculated. Although much of the process is automated you may need to provide additional information to support your assessment.

### How is my household income calculated?
The financial assessment will look at your household income for the last full tax year. For students starting their studies in 2017, this means that information from the 2015/16 tax year will be used. If this does not reflect your current financial situation, you might be able to undergo a current year assessment. You must first apply in the normal way based on the 2015/16 tax year. Please note that your household income must have dropped by at least 15% (5% in Northern Ireland) since the 2015/16 tax year.

### How do I apply for an Oxford Bursary?
There is no separate application process for an Oxford Bursary as this is based on the household income assessment carried out by your regional funding agency. However when you apply for UK government funding there is an option to prevent the university from viewing your financial details. If you, or anyone supporting your application, tick this box we cannot assess you for a bursary.

### What happens once my assessment is complete?
Once your assessment has been completed, you will receive notification from your regional funding agency of the support you will receive. You must sign the declaration form that is enclosed with your notification letter and return this to the Student Loans Company as soon as possible.

### When will I find out if I have been awarded an Oxford Bursary?
Students who are eligible for an Oxford bursary will be notified from mid September 2017. Students must have their financial assessment completed by May 2018 to be considered for a bursary.

Key Points to Remember

If you want to receive support from the UK government you have to apply for it.

Apply online as soon as possible to ensure that the funding is in place for the start of your course.

If you only want to apply for the minimum level of support (tuition fee loan and basic maintenance loan), you don’t need to be means tested and won’t need to provide your household income.

If you want to be assessed for the maximum level of support (increased maintenance loan), you must be means tested and provide your household income. This will also allow you to be assessed for bursaries provided by Oxford.

If you don’t apply to be means tested by your regional funding agency, you will be automatically ineligible for bursaries from Oxford.

Answer queries from your regional funding agency promptly if they require additional information regarding your application.

Ensure that you sign the loan agreement from your regional funding agency (unless you are a Scottish or EU student) and send it back when requested.

Keep a record of your application and any correspondence with your regional funding agency. This will be invaluable if you have any difficulties with your application.

Make sure that your contact details are kept up to date. All correspondence will be sent to the address you register with your regional funding agency including your bursary notifications.
